510(k) history	7 submissions · 6 cleared · 2008-2023

Neuronetics develops non-invasive neurology devices for treating psychiatric and neurological disorders. The company specializes in transcranial magnetic stimulation (TMS) therapy systems, with a manufacturing facility in Malvern, US. Neuronetics has received FDA 510(k) clearances from total submissions since its first clearance in 2008. All submissions focused on neurology devices. The company's regulatory activity concluded in 2023, making this a historical record of its FDA clearance history. The company's primary product is the NeuroStar Advanced Therapy System, a TMS...
