510(k) history	2 submissions · 2 cleared · 2021-2026

Endo Tools Therapeutics S.A. is dedicated to developing innovative endoscopic devices for gastric and urological conditions. Based in Gosselies, Belgium, the company focuses on minimally invasive therapeutic interventions using natural orifice access. The endomina® system represents their core technology, enabling endoscopic suturing and tissue approximation procedures. The company has received FDA 510(k) clearances from total submissions since 2021. All submissions focus on Gastroenterology & Urology devices. The latest clearance in 2026 demonstrates continued regulatory...
